Why Choose KGOLF?

From arrival to departure. Design an experience your customers will remember.

- **Can I make the brand mine?**

Match your logo, UI and brand sound
to your venue's unique identity.

- **Will customers come back?**

Host your own tournaments and events to give customers a reason to return.

- **Is the whole visit connected?**

Manage bookings, payments, check-in and check-out in one system. Make every visit convenient for customers and operations efficient for your venue.

- **Can I automate operations?**

Control HVAC, projectors, PCs and doors automatically around each booking.

- **Can I reduce routine tasks?**

Kayley helps with bookings, inquiries, reconciliation, training and marketing.

- **Can I promote in my venue?**

Use kiosks and screens to showcase your venue's events and F&B menus.

- **Can players trust the data?**

Precise shot data sets a reliable standard for practice and coaching.

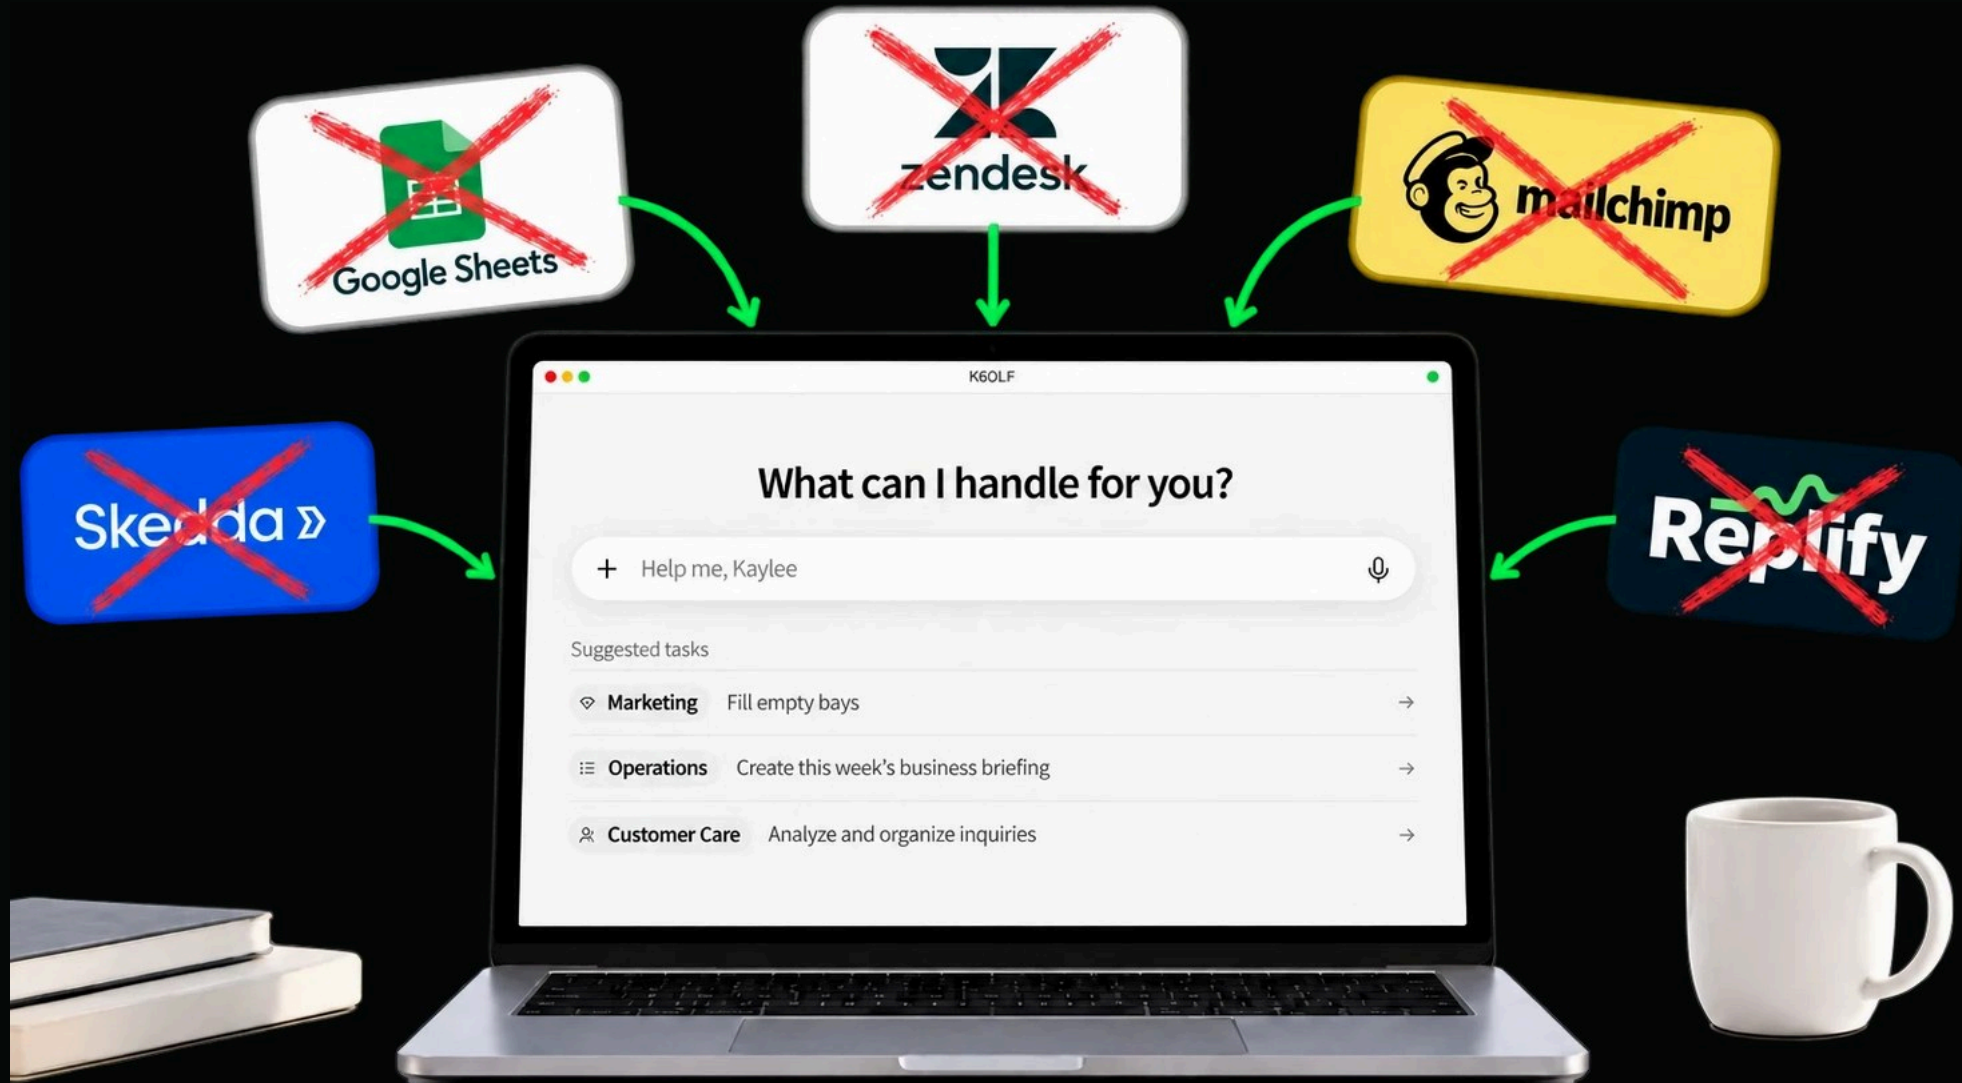

- Plan systems and venue operations together?

We plan space, operations automation and customer experience with you, tailored to your venue.

Bring scattered software **together**

Indoor golf venues use an average of 3–5 external software services. KGOLF brings bookings, payments, marketing, customer management, reconciliation and staff training into one place, reducing the burden of subscription fees.

Extend your venue's day to 24 hours

K-GOLF's unmanned automation system automatically controls kiosks, projectors, HVAC, screens and doors around each customer's session. It connects booking, entry, play and departure for a convenient experience. Choose partially unmanned or fully unmanned 24-hour operations to suit your venue.

AI Assistant Kayley

Reduce staffing costs and respond to customers faster. Built into KGOLF's venue management software, Kayley uses your existing booking, payment, kiosk and IoT data.

Booking Management

Handle bookings, changes, cancellations, no-show alerts and off-peak promotions.

Customer Care

Respond 24/7 in Korean, English, Japanese and Chinese.

Reconciliation · Reports

Summarize daily, weekly and monthly revenue and utilization.

Marketing

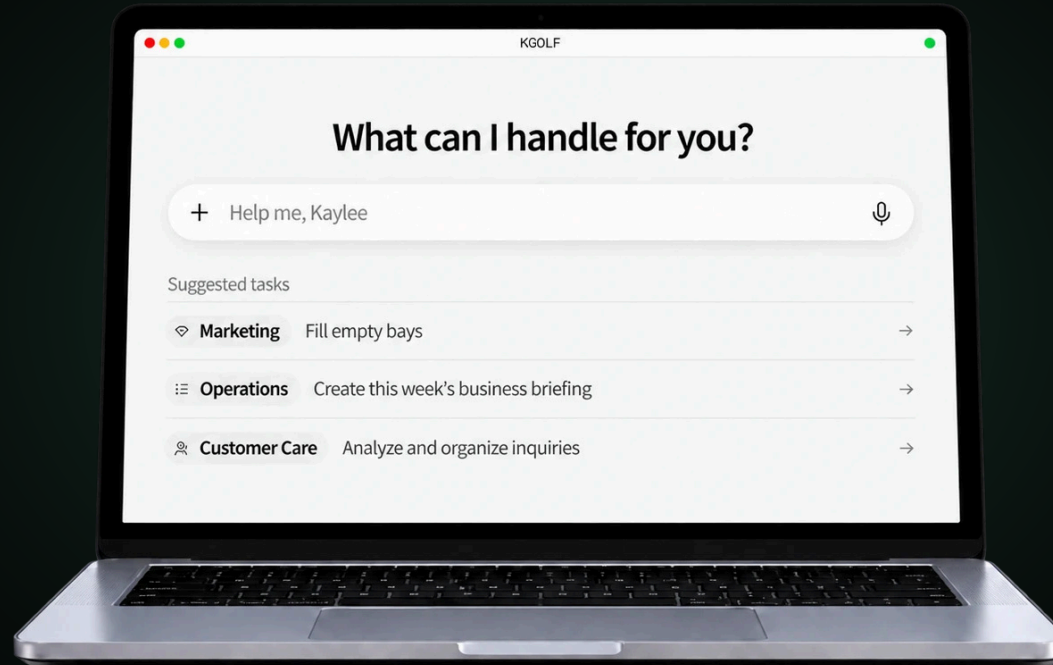

Bring back less frequent visitors with personalized offers and event updates.

Venue Operations

Help new staff get up to speed with service manuals and training guides.

AI That Knows Your Venue

Develop venue-specific suggestions based on booking and visit data.

Turn your venue into a premium media channel

Naturally showcase in-store events and F&B promotions to encourage repeat visits, and add revenue through advertising partnerships. Create promotional posters for venue tournaments and events with Kayley, your AI assistant, and display them with ease.

Full-touch screen. Meet your AI golf coach.

Practice with a full-body view of yourself and the AI coach on the vertical full-touch screen. Review your setup and wrist position, then follow the coach's guidance to work on corrections. Short prompts and check marks show you what to focus on.

Feature in development.

Follow the course terrain With a moving hitting bay

Recreate uphill, downhill and sidehill lies and take the same stance as on a real course. Pair rough and bunker mats with automatic tee-up to keep your play flowing without interruption.

Operating specifications

Tilt angle	Up to 7°	Drive system	9-axis linkage	Motor	40W AC motor
Load per axis	120kg	Weight	330kg	Components	3D plate · Automatic tee-up unit
Right-handed bay	1,800 × 1,300 × 150mm	Dual-handed bay	2,400 × 1,300 × 150mm	Power · Comms	AC 220V 60Hz 400W · RS-232

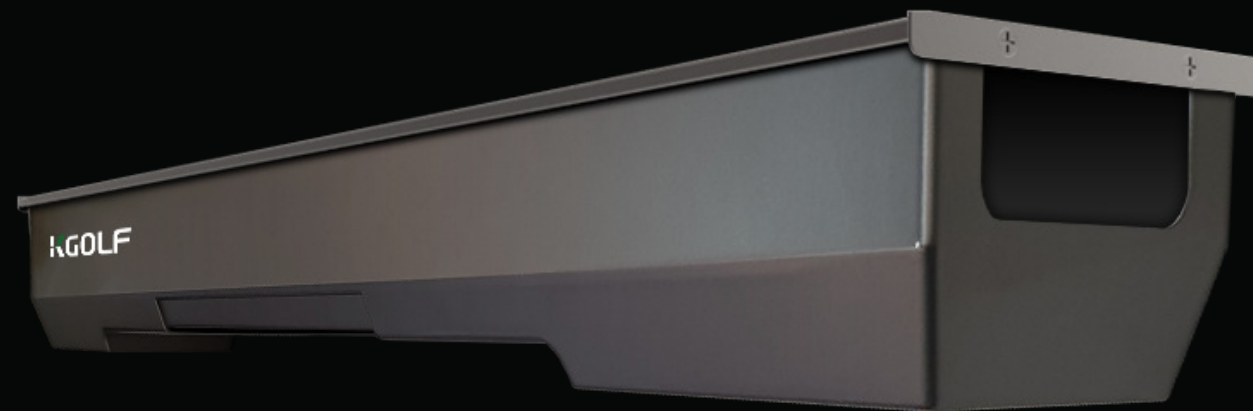

Automatic tee-up. Keep play moving.

The quiet auto tee-up system raises the ball for your next shot. Pair it with the 3D swing plate and rough or bunker mats to keep play moving.

Two cameras Turn ball movement into data

The 4,000FPS High-Speed camera measures the ball's rotation, trajectory, and speed in 3D, and then the independently developed PhysX 6D physics engine reflects the rotation amount of slices, hooks, fades, and other delicate trajectories and ball quality in real time.
(Requires a dedicated mark ball)

Details that complete the golf experience

Mat Display

LED projection guides show the putting line and ball position at a glance.

Side Swing Camera

Record your swing from beside the bay and review the side view. Compare it with the front view to check movement and posture during swing reviews and lessons.

Automatic Tee-up

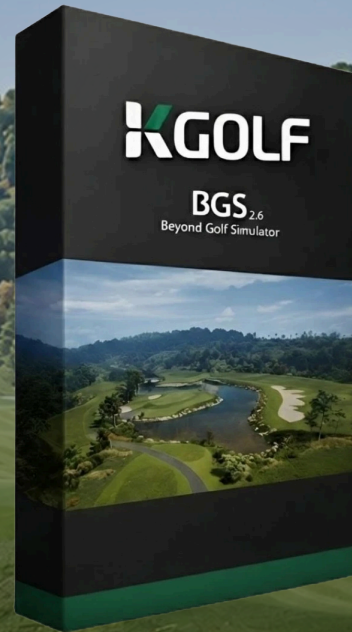

Collected balls travel beneath the mat and rise automatically through the tee-up hole.

LED Keypad

An intuitive, refined keypad. Bright, clear button displays make it easy for golfers to operate the system even in low light.

BGS2.6 HYPER-REALISM

Go beyond value for money with top-tier technology and immersive play.

Precise shot analysis, realistic courses and regularly updated content make this a premium package that players of all ages can enjoy with ease.

Launch Monitor

Access the performance data trusted by professionals, including smash factor, launch angle, spin axis, and club path. Identify swing issues instantly with clear, precise feedback.

Build your skills with Practice Modes

01

Driving Range

Practice in a realistic driving range. Focus on long shots to repeatedly check your swing, power and accuracy.

02

Launch Monitor

Analyze ball flight, spin, distance and other key data in real time. Use data to refine your swing and support structured lessons.

03

Short Game

Recreate a range of approach and putting situations. Focused practice helps you develop precise distance control and accuracy.

Solo or as a team Round Modes

01

Stroke Play

Each golfer plays their own ball and records every stroke. Compare total scores over the round to compete individually.

02

Foursome

A team play mode for up to four players. Play a round with your teammates and enjoy team competition.

03

Scramble

Everyone hits, then the team chooses the best ball position. Continue from that spot and repeat, completing each hole with teamwork and strategy.

Compete together with Competition Modes

01

Shot Challenge

Compare shot results and rankings as you compete with other players. The approach screen shows distance to the target and shot results.

02

Tournaments

Join golfers worldwide in tournaments and compete for titles and prizes. Alongside KGOLF tournaments, run your venue's own events. See tournament details in the app.

03

Network Play

Compete in real time with golfers around the world.

Easy fun for everyone Game Modes

01

Putting Game

A putting-focused game with simple controls that anyone can enjoy. Friendly graphics and varied courses make it easy for beginners to join, and for friends and families to play together.

02

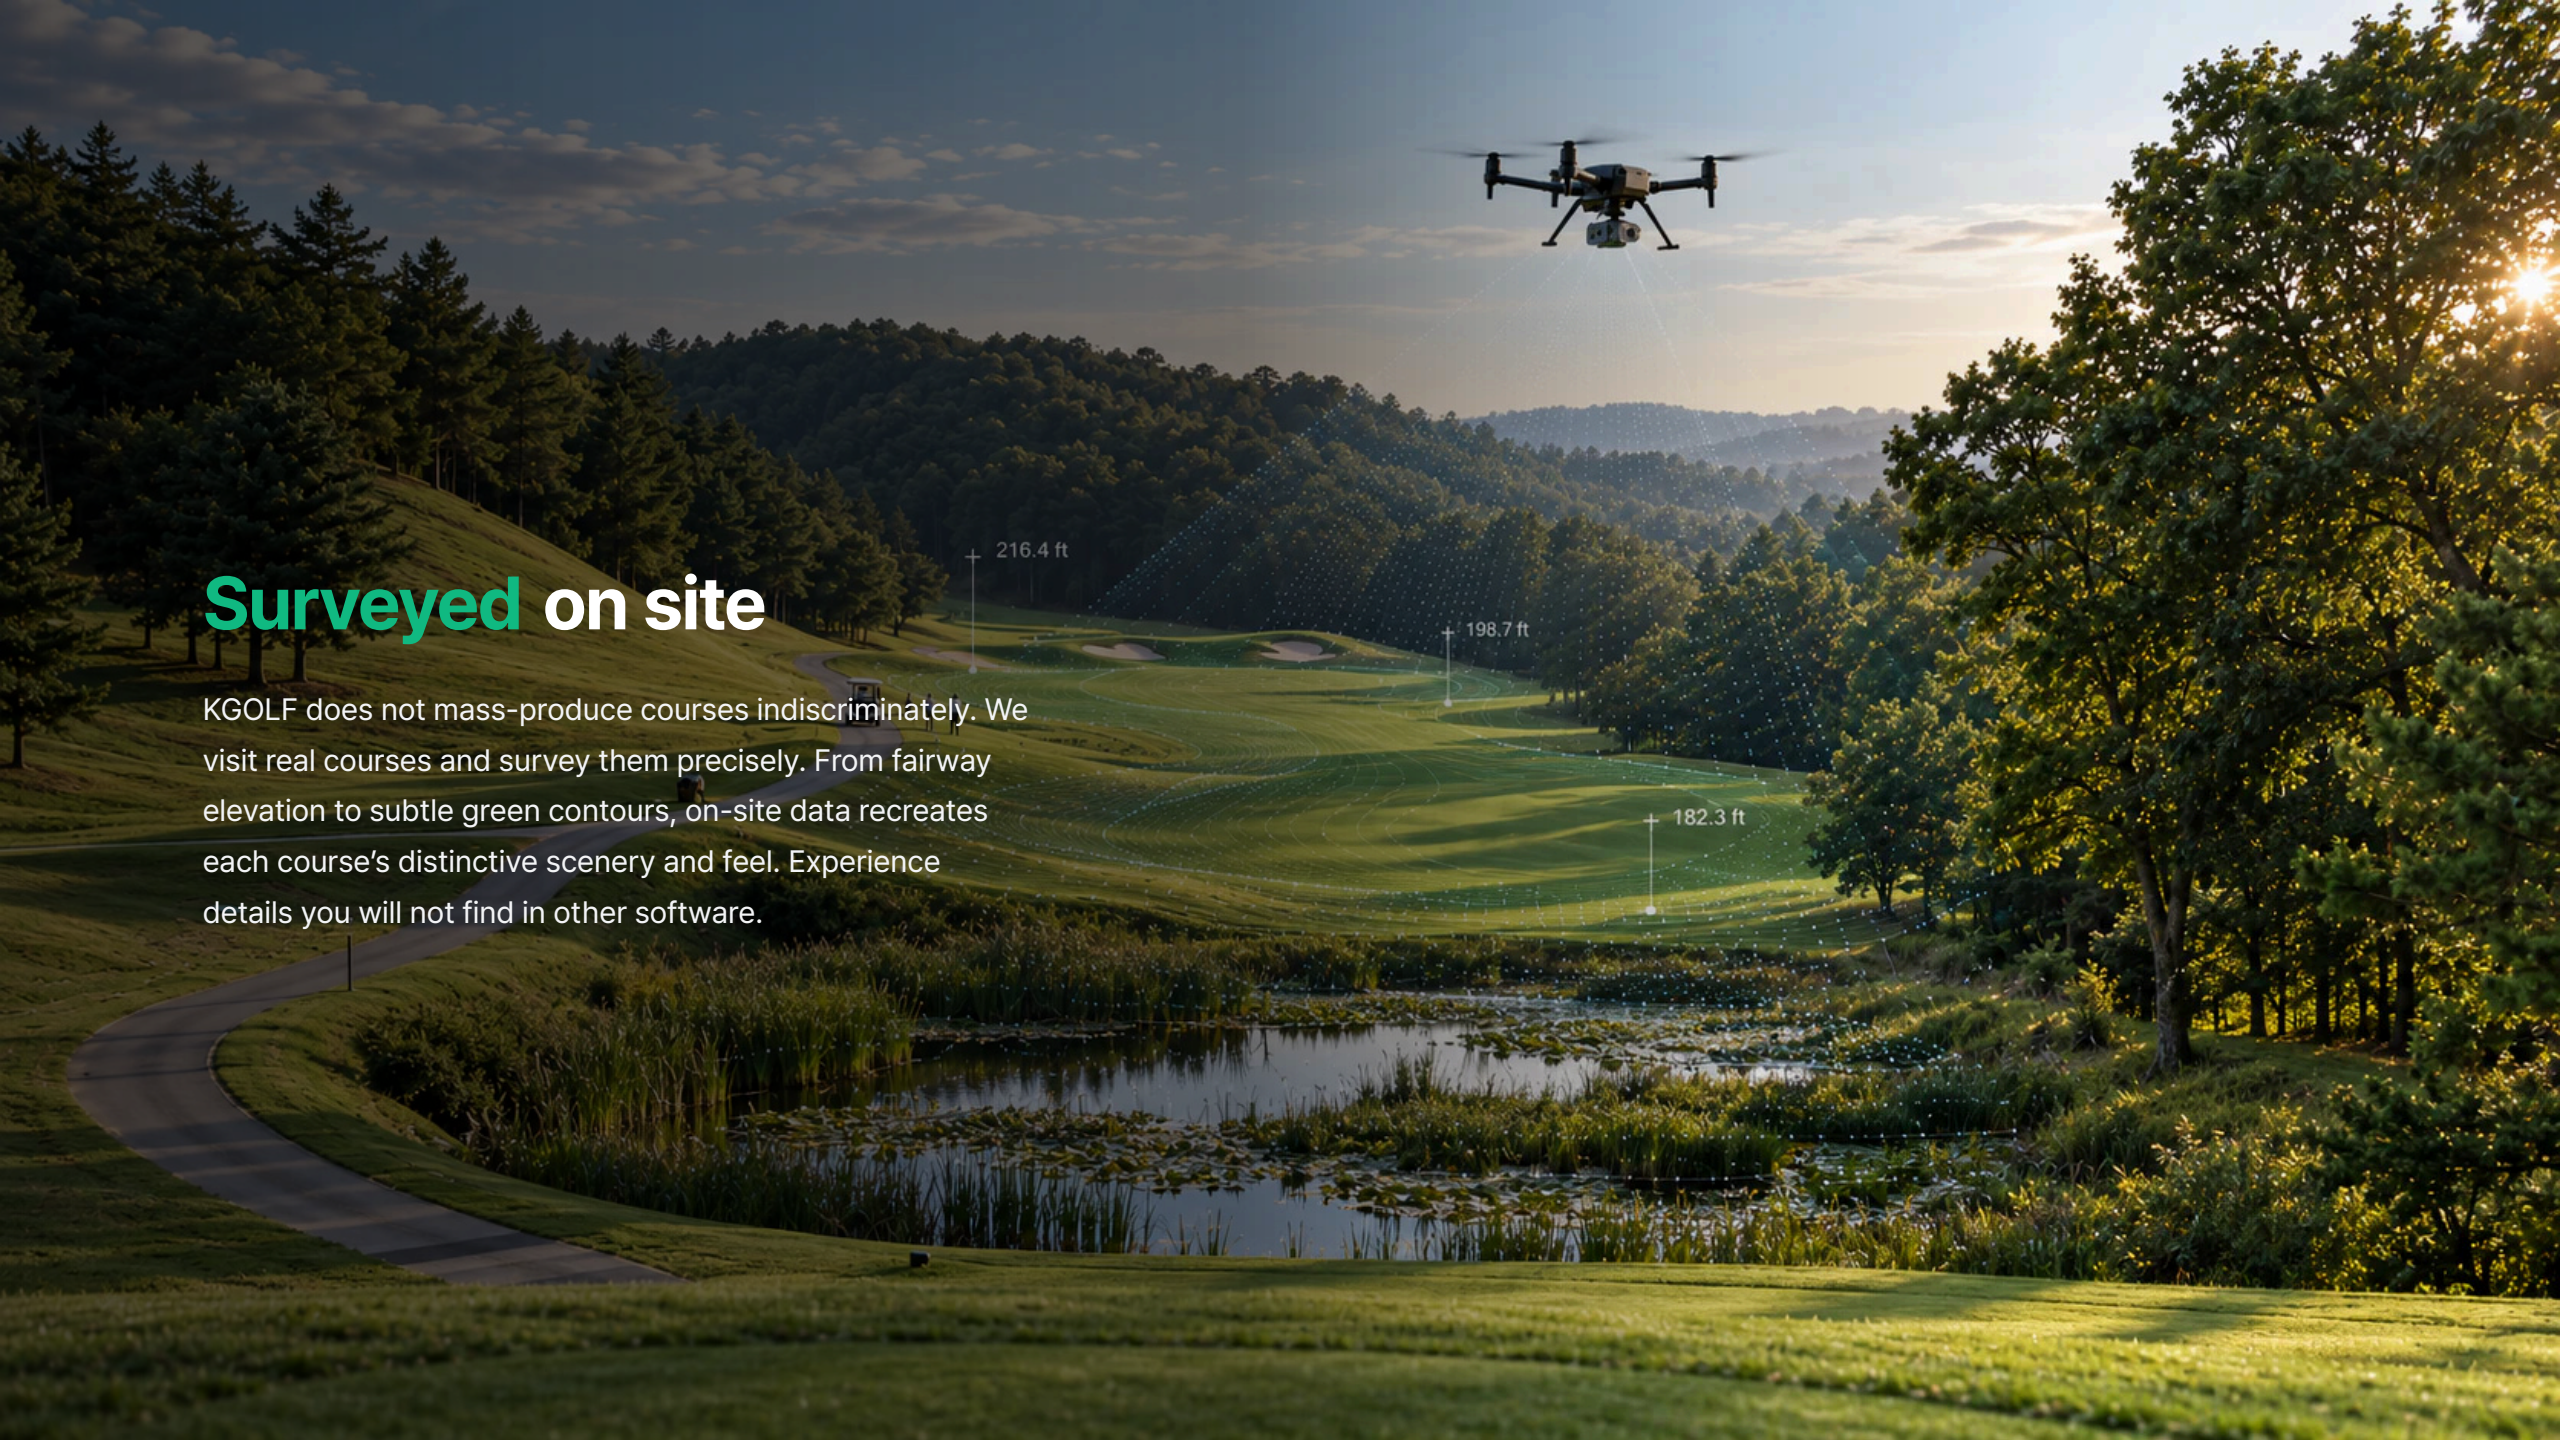

Shot Game

A casual game mode focused on short shots. Explore distinctive courses and enjoy a different way to play.

03

Shot Contest

Test your shot-making skills in longest-drive, closest-to-the-pin and approach challenges, and share the fun of playing together.

Surveyed on site

KGOLF does not mass-produce courses indiscriminately. We visit real courses and survey them precisely. From fairway elevation to subtle green contours, on-site data recreates each course's distinctive scenery and feel. Experience details you will not find in other software.

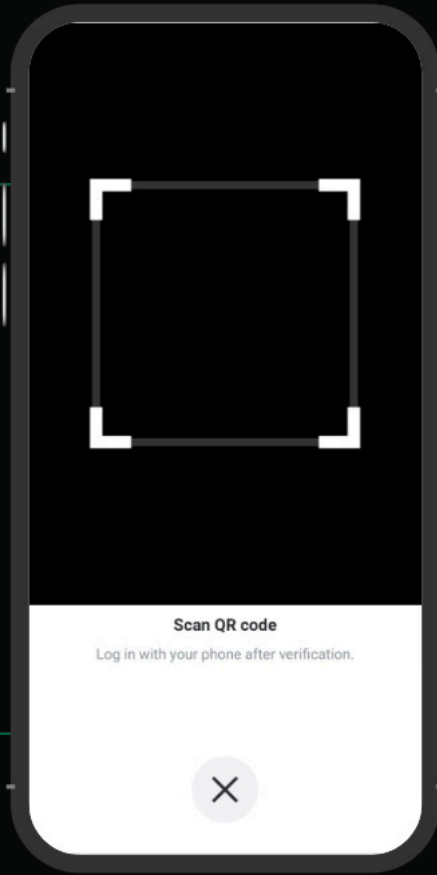

Discover courses around the world

Experience renowned courses worldwide and beautiful fantasy landscapes beyond the real world, brought to life in Unreal Engine-powered 4K graphics.

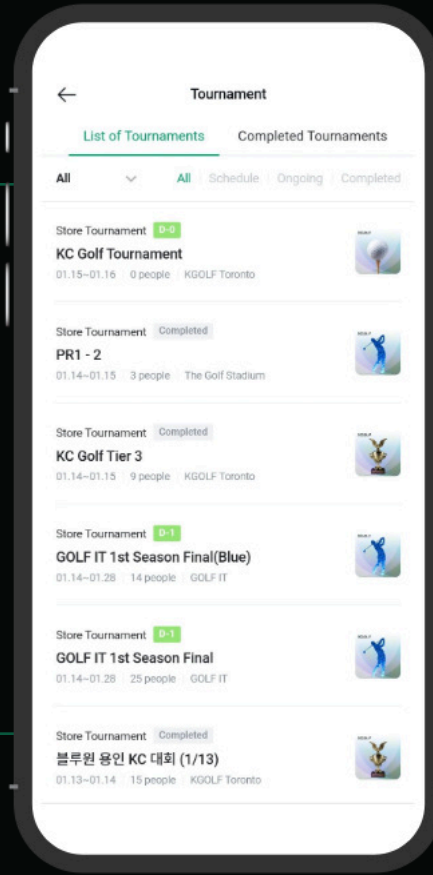

Application Key Features

01

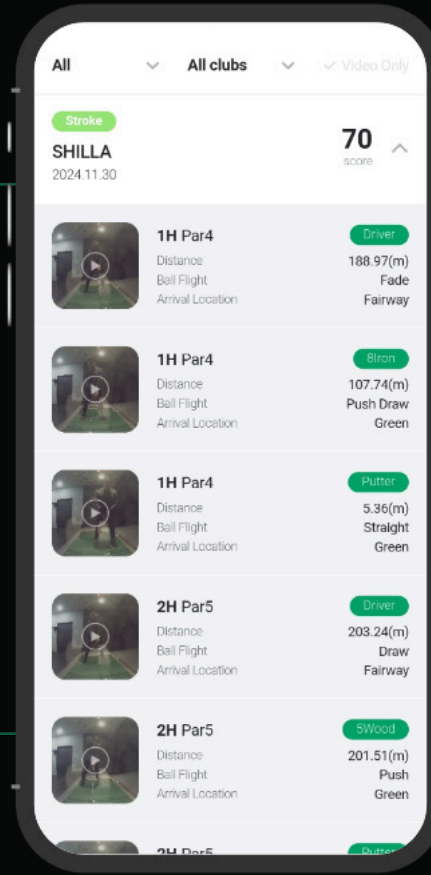

Scan the QR code on the kiosk to log in.

02

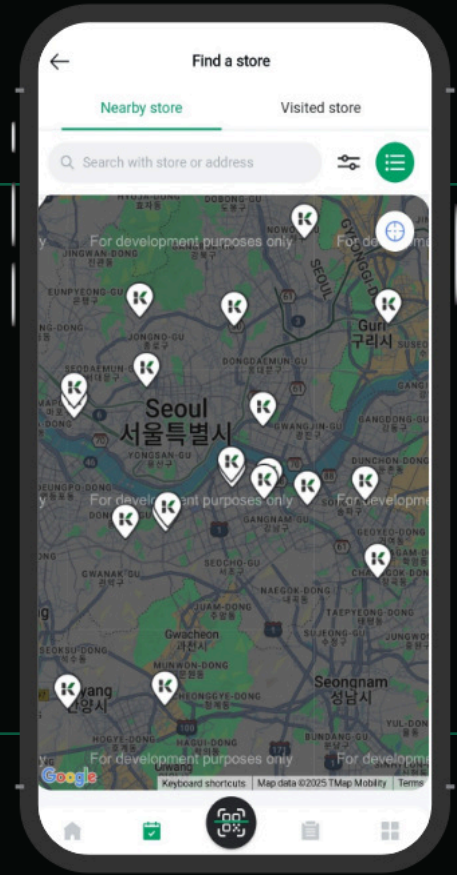

Local and global tournament details are updated in real time.

03

Shot videos save automatically. Review them anytime, anywhere.

04

Easily find a KGOLF venue near you.

Commercial Golf Venues

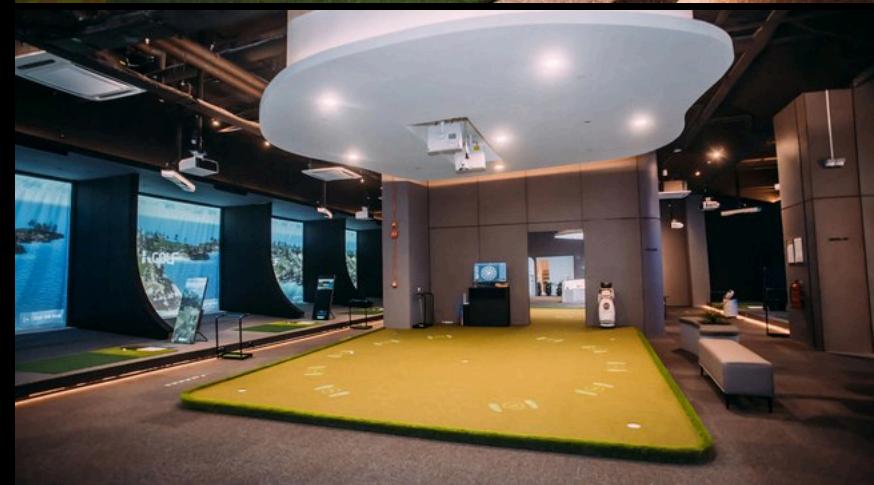

Build a more profitable golf simulator business with rich content, precise simulation and venue automation in one integrated system.

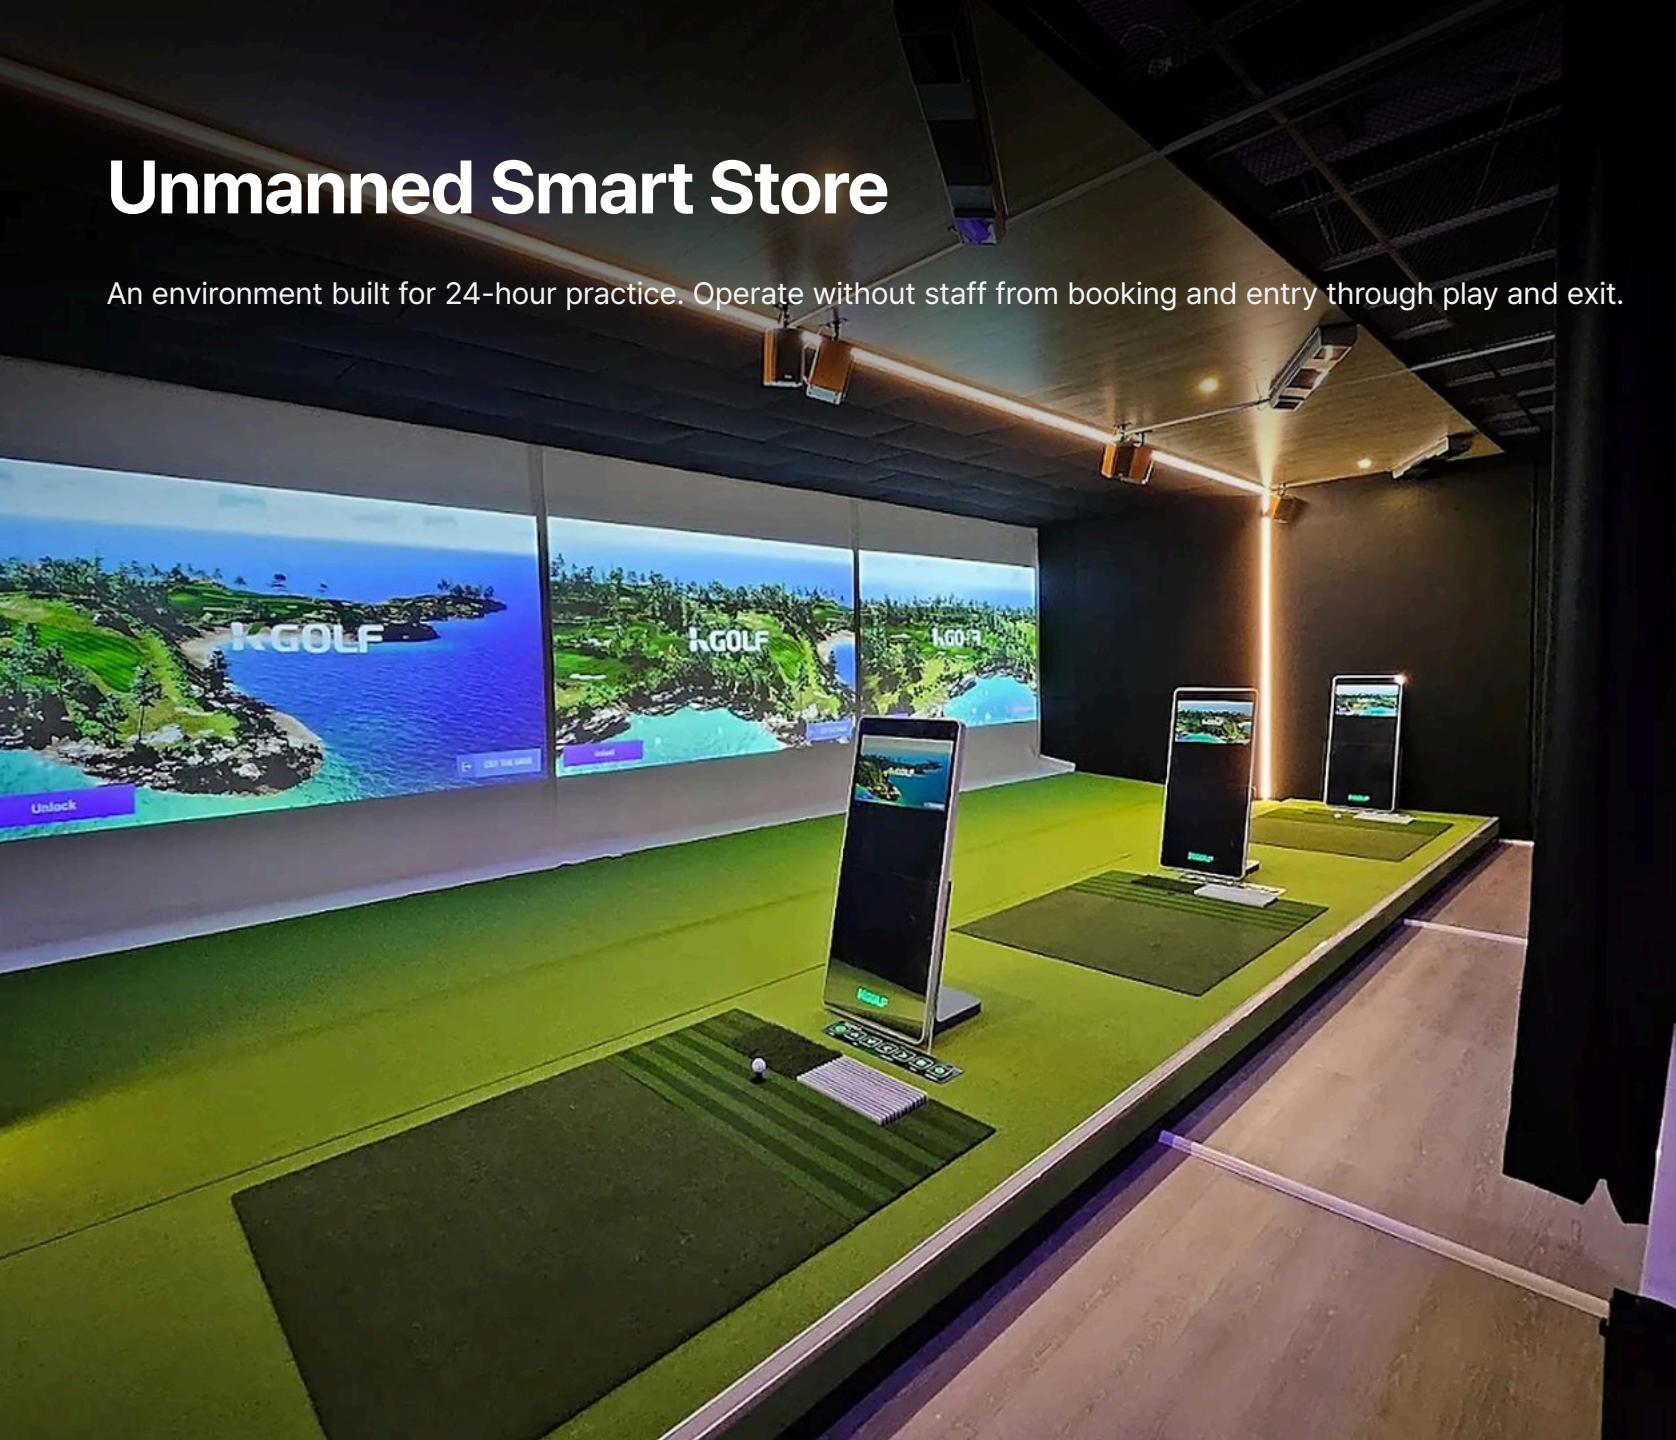

Premium Golf Academy

A dedicated space for premium lessons and focused training. Many golf academies across Asia choose KGOLF.

Unmanned Smart Store

An environment built for 24-hour practice. Operate without staff from booking and entry through play and exit.

Golf · Cafe · Dining

Combine the joy of golf with delicious food and drinks to create a place customers want to stay and return to.

Private Golf Lounge

A premium lounge for home or work. Expand the experience with soundproof design, AI swing analysis and home cinema integration.

Hotels · Corporate Wellness

Give staff a refined space to unwind, and guests a distinctive amenity they can enjoy in any weather.

Loved by customers. Proven by businesses.
